

IEEE / NERC Ultra Battery Testing Kit

Complete Ultra Kit

Product Overview

The Ultra Kit is the complete solution for testing per IEEE and NERC standards. The Ultra Kit has three parts: an IBEX-Ultra Portable Ohmic Battery Tester, SG-Ultra Digital Hydrometer, and Exmons Ultra+ All-in-One Management Software.

The Ultra Kit tests internal resistance, voltage, connection resistance, temperature, DC current, ripple current, specific gravity (state of charge), and electrolyte temperature. Eagle Eye's IEEE/NERC Kits are completely customized to meet your specific battery testing requirements. Let us know your specific applications, testing requirements and budget, and we can tailor a battery testing kit to fit your needs.
